Portfolio: https://ajay-kumar-software-engineer.vercel.app/

Professional Summary

Software Engineer with **3.7 years** of experience building scalable web applications using **C# - .NET, React, Angular, SQL microservices architecture**. Proven ability to optimize application performance & develop frontend components. Strong foundation in data structures, problem-solving, system design concepts, with hands-on experience delivering production-ready solutions.

Technical Skills

- **Core Technologies:**
  Languages: C#, JavaScript, TypeScript, SQL
  Frontend: React.js, Angular, Vue.js, HTML5, CSS3
  Infrastructure: Oracle Cloud, Azure Devops
  Databases: SQL Server, MongoDB, PostgreSQL
- **Backend: .NET, ASP.NET MVC, RESTful APIs, Microservices**
- **Development Tools:**
  Version Control: Git
  Analytics: Power BI
  Testing & Debugging: JEST, Vitest, UI/API Automation
- **Methodologies:**
  Agile Development
  Test-Driven Development
  Performance Optimization
  Rest API Integration

Work Experience

Software Engineer | 2026 - Present | Bangalore — **Asea Brown Boveri**

- **Develop** enterprise industrial software & digital platforms for **automation** applications, including Asset Performance Management.
- Build scalable **full-stack** modules using **Angular, React**, middleware services, **SQL** Server, and **MongoDB**.
- Apply **domain** knowledge of automation, OT systems, and industrial **workflows** while collaborating with global Agile teams.
- Design and execute **automation** tests after development to validate functionality, integration, and **production** readiness.

Senior Associate Software Developer | 2025 - 2026 | Bangalore — **Omnicom Global Solutions**

- Developed responsive UI components using **ReactJS** and **TypeScript** for campaign management platforms.
- Implemented API integrations using **Axios** to consume backend REST services defined via Swagger.
- Enhanced internal flowchart builder **UI** and implemented Excel export functionality.
- Optimized application performance using lazy loading, **memoization**, and efficient state handling techniques.

Associate Software Developer | 2024 - 2025 | Bangalore — **Omnicom Global Solutions**

- Developed backend APIs using **C#** and **.NET microservices** for hierarchy management modules.
- Integrated UI workflows with backend services following **REST** standards.
- Implemented **role**-based access control and **validation** logic to ensure secure data operations.
- Improved **API** performance and reliability through logging, exception handling, and code refactoring.

Junior Associate Software Developer | 2022 - 2023 | Bangalore — **Omnicom Global Solutions**

- Designed and implemented reusable **React** components for user access provisioning systems.
- Built interactive chart visualization system for campaign coverage analytics and **Redux** for state management.
- **Debugging** and resolving production issues to ensure system stability and uptime.
- Collaborated with cross-functional teams to deliver features on time following **Agile** methodologies.

Internships

Engineering Intern | Vihanga Technologies | September 2022 - November 2022

- Worked on embedded system modules and basic firmware development using C and **microcontroller** concepts.
- Assisted in debugging hardware–software **integration** issues and validating system functionality.

MERN Stack Intern | ITC Infotech | January 2022 - Febraury 2022

- Developed REST APIs and frontend components using **Node.js, MongoDB,** and **React** for internal web applications.
- Implemented basic authentication and **CRUD** features following industry best practices.

Web Application Intern | Qapita | August 2021 - September 2021

- Built and enhanced web application features using modern **JavaScript, HTML, and CSS.**
- Collaborated with senior developers to fix UI bugs and improve application **usability**.

Academic History

Bachelor Of Engineering in Telecommunication / Tech Major | KSIT - VTU | 2018 - 2022 | CGPA: 8/10
PUC - Computer & Information Science | Vijaya Pre-University | KSOU | 2016 - 2018
SSLC - Science | VET High School | KSSEB | 2015 - 2016

Certifications

- Certified OCI **AI Foundations Associate - Oracle.**
- Certified **Reactjs Associate** - LearnTube AI.
- Certified Oracle **Cloud** Essentials **Learner**.
- Certified **Full stack** developer - Simplilearn.
- Microsoft **AZ-240** - Ongoing

Achievements

- **Top performer** in Full Stack Training with **95%** overall score
- Recognition for **exceptional debugging** skills - **Rockstar Rookie Award, 2026**
- Successfully delivered multiple production & **frontend UI** ready features - **Annalectual of the quarter award, 2025**
